SUBJECT: Proposed Presentation of DI Trends  
and Highlights

The DCI requires as part of the search for excellence that each directorate present an orientation on its organization and functions to the whole Agency. To satisfy that requirement, I propose that we offer "DI Trends and Highlights" in two half-day segments in late November or early December. As you may note from the attached course outline, we propose to steer clear of wiring diagrams in favor of anecdotes and case studies. If this looks okay, we shall proceed.

Approved:

  
Associate Deputy Director  
for Intelligence
