as stated

100/2 - 11:

SIS Leave Conversion

The Director of Central Intelligence may propose or support legislation that would allow Senior Intelligence Service employees to convert to cash any annual leave balances in excess of a set amount each year and may support extension of this to members of the Senior Cryptological Service as appropriate.

100/2 - 12:

[DELETED]

100/2 - 13:

Enhanced Disability Annuitant Benefits

The Director of Central Intelligence may include in the proposed Fiscal Year 1989 Intelligence Authorization Act legislation which would authorize a Central Intelligence Agency Retirement and Disability System (CIARDS) disability annuitant, whose annuity was terminated and later restored, to elect life and health insurance coverage subsequent to the restoration of the disability annuity. This proposal would bring CIARDS into conformity with rules governing Civil Service Retirement System disability annuitants.
