SUBJECT: Draft Legislation for Items in FY 1989
Intelligence Authorization Bill

1. You have requested that we provide you with draft legislation for the items that we submitted for inclusion in the FY 1987 Intelligence Authorization bill.

2. Attached are three legislative proposals that include statutory language, report language and, where appropriate, changes in existing law. These proposals refer to the following:

a. Item 100/2-10 on Transfer to the FEHBP from CIA-Sponsored Health Programs. Final inclusion in the bill depends upon the results of the current studies of the Agency health insurance plan.

b. Item 100/2-11 on SIS Leave Conversion. This legislative proposal is presented as a free-standing provision within the bill rather than as an amendment.

c. Item 100/2-13 on Disability Annuitant Benefits.
