Waiver of Dual Compensation Limitation  
For Retired Military

At the July 12th meeting, the Panel supported a recommendation to grant a waiver of the dual compensation limitation for employment within the IC of a select few retired military officers. A waiver would be granted only when it is determined by the head of an agency that the services of such individual are of vital importance.

In response to this position, the IC agencies were asked to identify which positions would be best filled with the unique skills of such retired military officers. The agencies' list is attached.

Considering the IC agencies input, a Panel decision is needed with respect to its continued support of the dual compensation waiver for the IC agencies. Options are:

1. Support general waiver of the dual compensation restriction for the IC agencies.
2. Support a dual compensation waiver, but only for the truly unique few. Decision to hire made by agency head. Could add an annual reporting requirement to the Intelligence Committees, given the sensitivity of this matter.
3. Don't support dual compensation waiver.
