OTA

The Honorable William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505

Attention: Office of Legislative Affairs

Dear Mr. Casey:

The Office of Technology Assessment is performing an increasing number of studies that require our analysts to have access to Sensitive Compartmented Information (SCI). In the past, OTA has been able to utilize Sensitive Compartmented Information Facilities (SCIF) belonging to others. However, the requirements of our current study of SDI Technologies, which was mandated by Public Law 99-190, will necessitate construction of our own SCIF.

In this regard, I request assistance from your agency in the design, inspection, and certification of an accredited group of rooms or installations at OTA where SCI may be stored, used, discussed, and/or electronically processed. OTA's Administrative/Security Officer, Tom McGurn (224-3695) has been in contact with members of your staff concerning this request and will be available for further contact on this matter.

Your timely assistance in this matter is greatly appreciated.

Sincerely,

John H. Gibbons
