

STAT

Did we get additional ceiling in
FY84 for this purpose??

On the face of it, it seems unlikely.
What happened in Aug 1983 would
not result in slots in FY84! Maybe
a year or so later.

Did we ever get ceiling for this purpose?

MEMORANDUM FOR: Director of Information Technology

FROM: Allen R. Elkins
Director of Finance

SUBJECT: Data Access Center [REDACTED]

1. In August 1983 the Office of Finance was notified that the Data Access Center (DAC) [REDACTED] would be shut down in the absence of available authorized positions. In order to retain this operation, the Office of Logistics, Communications, and Finance temporarily provided positions so that OIT could continue to man the Center. It is our understanding that your office was to receive additional ceiling in FY 1984 to accommodate the DAC function.

2. We do utilize this Center and need to have the service continued. Consequently, we have continued to designate one of our authorized positions to permit staffing by your office. However, requirements now dictate that we use our position to satisfy internal Office of Finance needs and request that you provide the necessary slot(s) to keep the DAC operable.

3. Please advise when you expect to have positions available and established on the formal staffing complement.

[REDACTED]
for Allen R. Elkins
