23 March 1987

NOTE FOR: Leon Feurth  
Sen. Gore's Staff

FROM:

STAT

*AD Chrono*

*OCA 87-1188*

This note responds to your request of several days ago to provide any private comments on a draft monograph entitled "Verification of Arms Control Limits on Mobile Missiles."

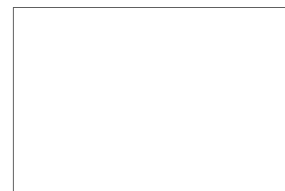

I have read this document closely myself. My apolitical comments, which do not represent anyone's views other than my own, are in green. They are unclassified.

Two of the issues I looked for were:

- protection of intelligence sources and methods; and
- correction of any technical points, such as changing monitoring to verifying in a few places.

I hope this is helpful in a professional sense.
