SUBJECT: Request from OMB Regarding SEO's Points of Contact

*Fred*

1. Following your briefing at the Office of Management and Budget 7 July 1988, one of the OMB examiners asked [redacted] Program Monitor from this office, to request from you the names of the offices with which you will be working as you proceed with the establishment of the Security Evaluation Office (SEO). The OMB examiner explained that he would use such a list to assure that SEO was being properly supported by asking the identified offices about their working relationships with you during various budget hearings, reviews and meetings throughout the budget cycle. The examiner opined that this office could also benefit from this information for the same purpose. I agree and ask that you provide to OMB and to me a list of the offices throughout the Intelligence Community and beyond if appropriate with whom you expect to interact in carrying out your mission.
