WASTE-WATER PURIFICATION IN VISCOSE MILLS.  
[1961] [19]p.  
Order from SLA \$1.60

L. Kruger, K

61-16714

Trans. of Reynol. Zellwolle [und Andere Chemiefasern]  
(West Germany) 1951, v. 29, p. 362-367.

DESCRIPTORS: Cellulose chemistry, \*Chemical waste  
Purification, Water supplies

It is shown that it is possible with a mechanically operated purification plant, if necessary in combination with settling ponds, to purify the waste waters of viscose mills, even under unfavorable drainage-canal conditions, so far that the purified waste water meets the official requirements and can be introduced without hesitation into the drainage canal, so that no damages will be done to the fish. A few analytical methods for the analysis of the waste waters are given, which have been tried and tested in years of practice. (Author)
