Zenskatov, A. T.
THE PROBLEM OF ACUTE HEPATIS. [1961] 7p.
Order from ODS or SLA \$1.10 62-15313

Tranz. of Klinicheskaya Meditsina (USSR) [1956] v. 34,
no. 3, p. 79-82.

SYNOPSIS: *Etiology, Pathology, *Diagnosis,
*Prognosis, *Therapy, Penicillin, Procaine, Surgery.

Hepatitis does not possess a characteristic symptom-complex; the pre-operative diagnosis is fraught with difficulties. In actual practice hepatitis is encountered more frequently than is described or diagnosed. The tactics of the surgeon and the character of his operative interference depends on the clinical picture of the illness, the operative findings and the patient's general state.

The reaction of potassium O, O-dialkyl dithiophosphates
with aromatic sulfonyl chlorides was studied. It was
shown that aromatic sulfonyl chlorides do not form
mixed anhydrides on reaction with potassium O, O-dial-
kyl dithiophosphates, but exert a chlorinating action.
