DESCRIPTORS: Butadienes, Polymerization, Reaction
Kinetics, Temperature, Velocity, Oxygen

Thermal polymerization of butadiene within the temper-
ature interval of 110-200° was investigated, and reac-
tion velocity curves obtained for each temperature. It
was established that the order of the reaction changes
with change of the temperature of the experiment. The
average order of the reaction determined according to
van't Hoff is approximately 1.5. The accelerating effect
