1. Talked with Colonel Timothy in the L&L Office of Office of Secretary of Defense and read a draft staff study concerned with the problem of security procedures on Capitol Hill. At the present time the study is in the Office of Security Policy of OSD for their comments. The present thinking visualizes consideration of this basic problem with other agencies such as FBI, State and CIA.

has been alerted to this.

4. Pforzheimer telephoned to advise he had seen Hillenkoetter who indicated that he and Kehoe of the UFO organization in Washington were classmates. Apparently Hillenkoetter's interest stems from many facts including his close acquaintanceship with General Thomas White and Hillenkoetter apparently likes to needle White on the subject saying that the Air Force is withholding information which the public is entitled to know. This information should be handled very carefully in discussing the matter with the Air Force.
