24 November 1962

Memo for the Record  
From [REDACTED]

25X1A

25X1A 1. BK coverage on 23 November again was poor. One short mission was flown, and the readout reflects bad weather, poor scale, obliquity, and haze. No major targets were covered.

2. According to [REDACTED] DIA, the objectives for the BK mission of 24 November, as worked out with Navy ops center, were the following:

25X1A

[REDACTED] Cienfuegos Naval Base  
Casilda Port  
Casilda Staging area  
Santiago de Cuba Port

25X1A

25X1A

25X1A

The principal, perhaps only, merit of this list is that [REDACTED] and the related [REDACTED] are key areas of interest in the broader [REDACTED] search area.

3. The targets to be recommended for 25 November:
