29 April 1957

MEMORANDUM FOR: Secretary of Utilization Advisory Board

SUBJECT : Use of TALENT Material

ATTACHMENT : a. Sanitized Report
b. Annotated Map
c. Overlays (2)

1. Permission is hereby requested to blend TALENT System Material with existing published collateral maps and other reports for immediate operational use. Although certain specific details taken from the TALENT System do not appear in collateral materials, all items in this study derived from the TALENT System can be reasonably ascribed to collateral sources.

2. The sanitized study is attached. It includes a marked map and two overlays indicating the items mentioned in the text. The wording of the text positively ascribes critical items of information to logical collateral sources.

3. It is intended to pass the sanitized report, map, and overlays outside the TALENT Control System to case officers of the SR Division.
