((("the world today" program presented by political observer georgiy zubkov; 14w, first program, 3675 mhz))

1 it is almost 10 years since pinochet took power in chile. the storm of popular anger has been mounting recently and today has seen the fourth days of national protest in as many months.

2 map published in newsweek shown on screen, illustrating the scale of u. s. central american military maneuvers, based on the aircraft-carriers ranger and new jersey. fidel castro quoted, in conversation with journalists, describing the maneuvers as a cunning ploy: now they are saying they will last 6 months; later they will say it will be 6 years.

3 today we are able to show you reportage from ndjamena, the capital of chad. the town, as you can judge from these shots, is fairly deserted, though you can see people in military uniforms. these are advisers from western powers and soldiers from other african countries. in chad there are almost 3,000 soldiers and officers from zaire, and american servicemen have been sent here, as have french servicemen. it has become known that in the very near future france is to bring the number of its servicemen in chad up to 500. i shall quote from the newspaper 'le matin':

taking advantages of the flare-up in military actions in chad, the paper writes, reagan has decided to step up american penetration of africa south of the sahara.

4 (bright star 83': that is the name of the military maneuvers which have now begun on the territory of egypt and will subsequently be held in sudan, oman and somalia. among those taking part in these large-scale exercises will be almost 5,500 american servicemen forming part of the interventionist rapid deployment forces. despite their name the purpose of these bright star maneuvers is exceedingly shady. bu holding them the united states is striving for a broadening of the american military presence in this part of the world in an attempt to foist its diktat on a number of arab and african countries.

5 the craxi government is today seeking a vote of confidence in the italian parliament: craxi has spoken of adherence to nato and of deploying missiles in italy if the geneva talks produce no result.

6 compilation of facts and figures on the magnitude of protests, petitions and other actions against nuclear missiles in western europe.

7 reportage on the latest dike being constructed to protect holland from the sea. lake/mc 11/2246z aug
