104 vera lebedeva, referring to anzus council meeting in
 washington. says washington intends to increase its military
 presence in indian ocean. lebedeva says turkey, which borders
 both iran and ussr, is a nato member and adds u.s. warships
 patrol near turkish coasts and military maneuvers are often carried
 out there. refers to recent joint turkish-u.s. maneuvers and
 says there is no doubt that participants wanted to scare iran
 and ussr, new maneuvers will begin in august in region, while
 imperialists are trying to replace cento with new military alliance
 in near east. all these things clearly show how u.s. imperialists
 intend to place region under their control and to disarm nonaligned
 movement of which iran is a member. but asian nations reject
 these aggressive plans, and support normalization of persian
 gulf situation and turning of indian ocean to peace zone. in
 order to achieve these objectives, dangerous militaristic
 machinations in region should be ended. ussr has put forth proposals
 for establishing peace in region and throughout world. these
 proposals and initiatives fully conform with interests of iran,
 one of first steps of which after revolution was to leave cento
 pact. (8 min: persian 1700 1800)
