

Project 8003 Session CCC 33
250900 Mar 80

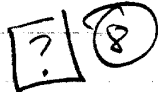

Start - first imagery

① 4 storey bld - lot of glass in windows - vertical about
lg "L" shaped bldg
open field in front
* something
vertical about
windows
not on
sketch #1

② behind and to
③ sure
to R. is a lg open area

③ to R. is partially buried concrete channels
ht's about 400 mtrs from big bldg.
go to slight altitude

④ open park
⑤ lg circular to bottom left
box w/ black squares in it
steel pipes or something
over and thru concrete box

look down at starting point
⑥ could be
sculpture lg section of white bent metal
grid shape covering it
prong thing going thru it - black

Move to 1st bldg - one half mi SE
OK

how describe

⑦ "U" shape but one leg of "U" is shorter
6-5 storeys - all brick
lot of reflection - like glass
* smelled something familiar
fenced court yard - double fencing
wall around bldg

Activity

all in doors -

More indoors

funny doors - everything white
glass holes in doors
laboratories

electronic equip

human
experiments maybe

Smell is like a cleaning fluid

semi dark room w/ flash strobe
flashing

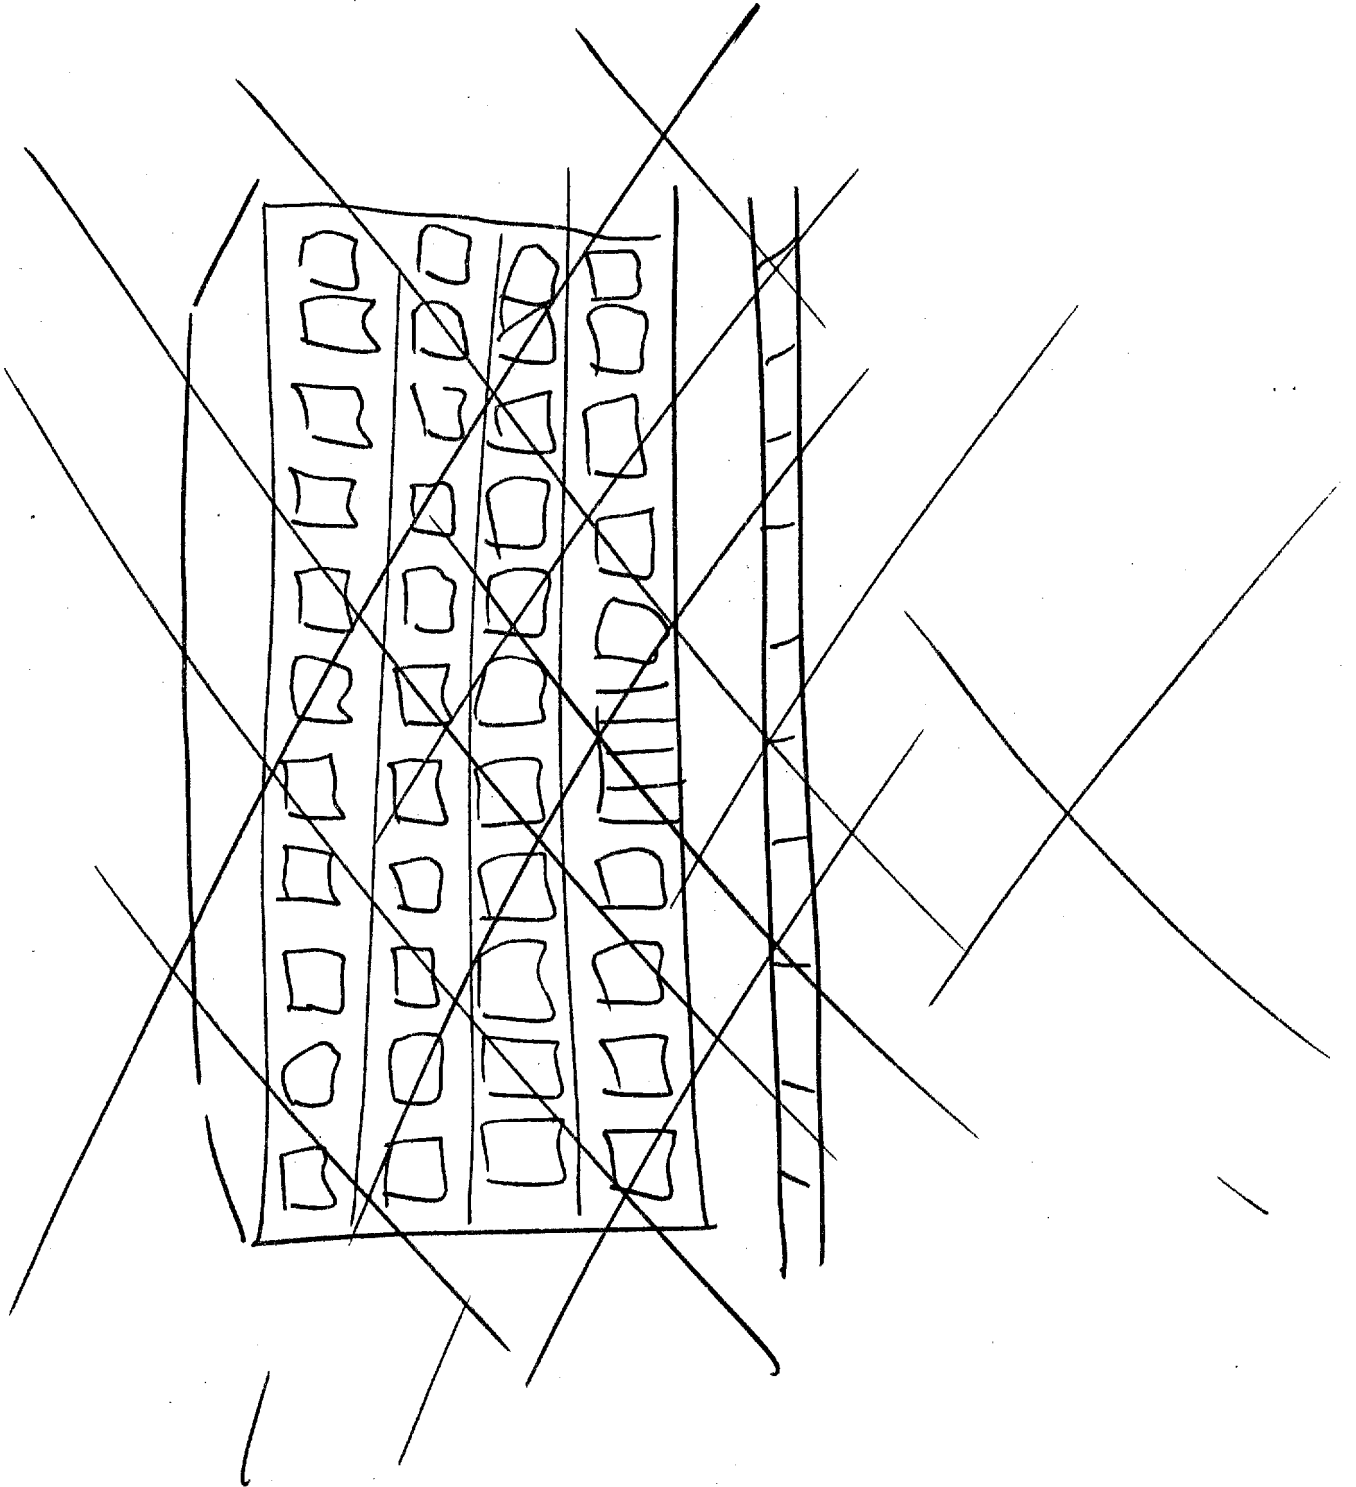

like residential type rooms - like apts
one whole floor - cages - small animals

The — is in the base of the "U"
R. side is shortened somewhat,
half moon shaped covering on pillars
extending from front door - looks
like overhang

Peculiar odor - knows but can't remember
