

SG11

087

(018) Session

start 1500

+3 poemok things - spider holes
valley to NE

hydro electric dam - pen stock discharge
chute

lot of power - awful cold for a hydro -
electric

big hall again on hill

beds and people to L.

big scroll things to R.

+9 tracks on track or belt of ammo

looks like floor d'li w/ eagle on it
facing R.

+13

non-tracking parabolic dish between 2
piling - $\pm 45^\circ$ above horizon

Complex - two stumps or smaller
not like big metropolis -

tall structure farther to L. to S.

+18.

RR spur to NW

big pipes - groups of 4 or axle wheels to R.
under a complex of overhead big tubes

Coal fired manufacturing
big belts like coal conveyors
big crucible

Clean-swept ground off to R.

2-3 ramp conveyors & big pipes

Spherical tanks - 30-40' thru
maybe high pressure tanks } irregular spacing

+32

* look down for 200'

+33 bits, noisy, bunch of blow torches

look down for 1000'

complex of bldgs w/ factories to NE

S. toward site a giant tube shape

+35 move over to manuf area

Silhouettes of tall structures in red glow.

Smoke/steam billowing, drifting of
valley

+38 move down to ground & describe complex
narrow gauge RR bed which disappears
into darkness
big barn in front of him in
look like insulators glowing in air to R. of #4
repetition of tubes on R.
inclined upward @ 45°
something discharging into them

+40 face barn & describe
repetition looking down cradled ribs
like a boat hull

whole bldg not used, (just a part)
going to use center portion

+43 desc. height
40-50' but longer than that

like a big tank car barn

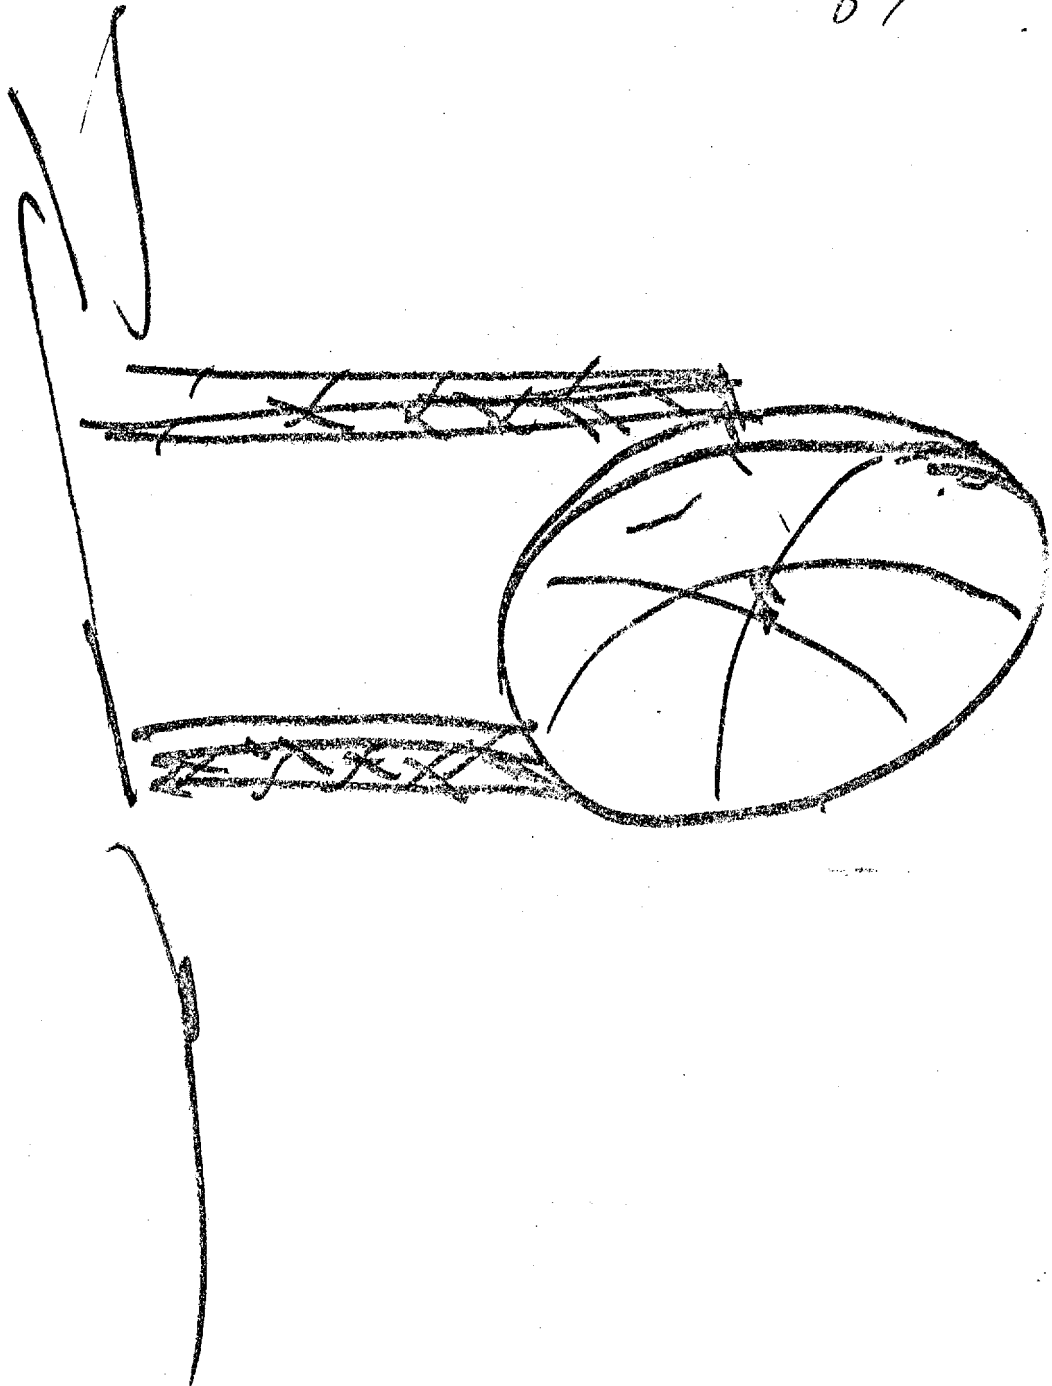

RR track - saw wheels, big tank car
There is no manufacturing in this
big barn

+ 51 I've got to be in wrong place - looks like
Jules Verne

+ 55 big tank - rocket - rocket engine shapes
looked like it straightened right up

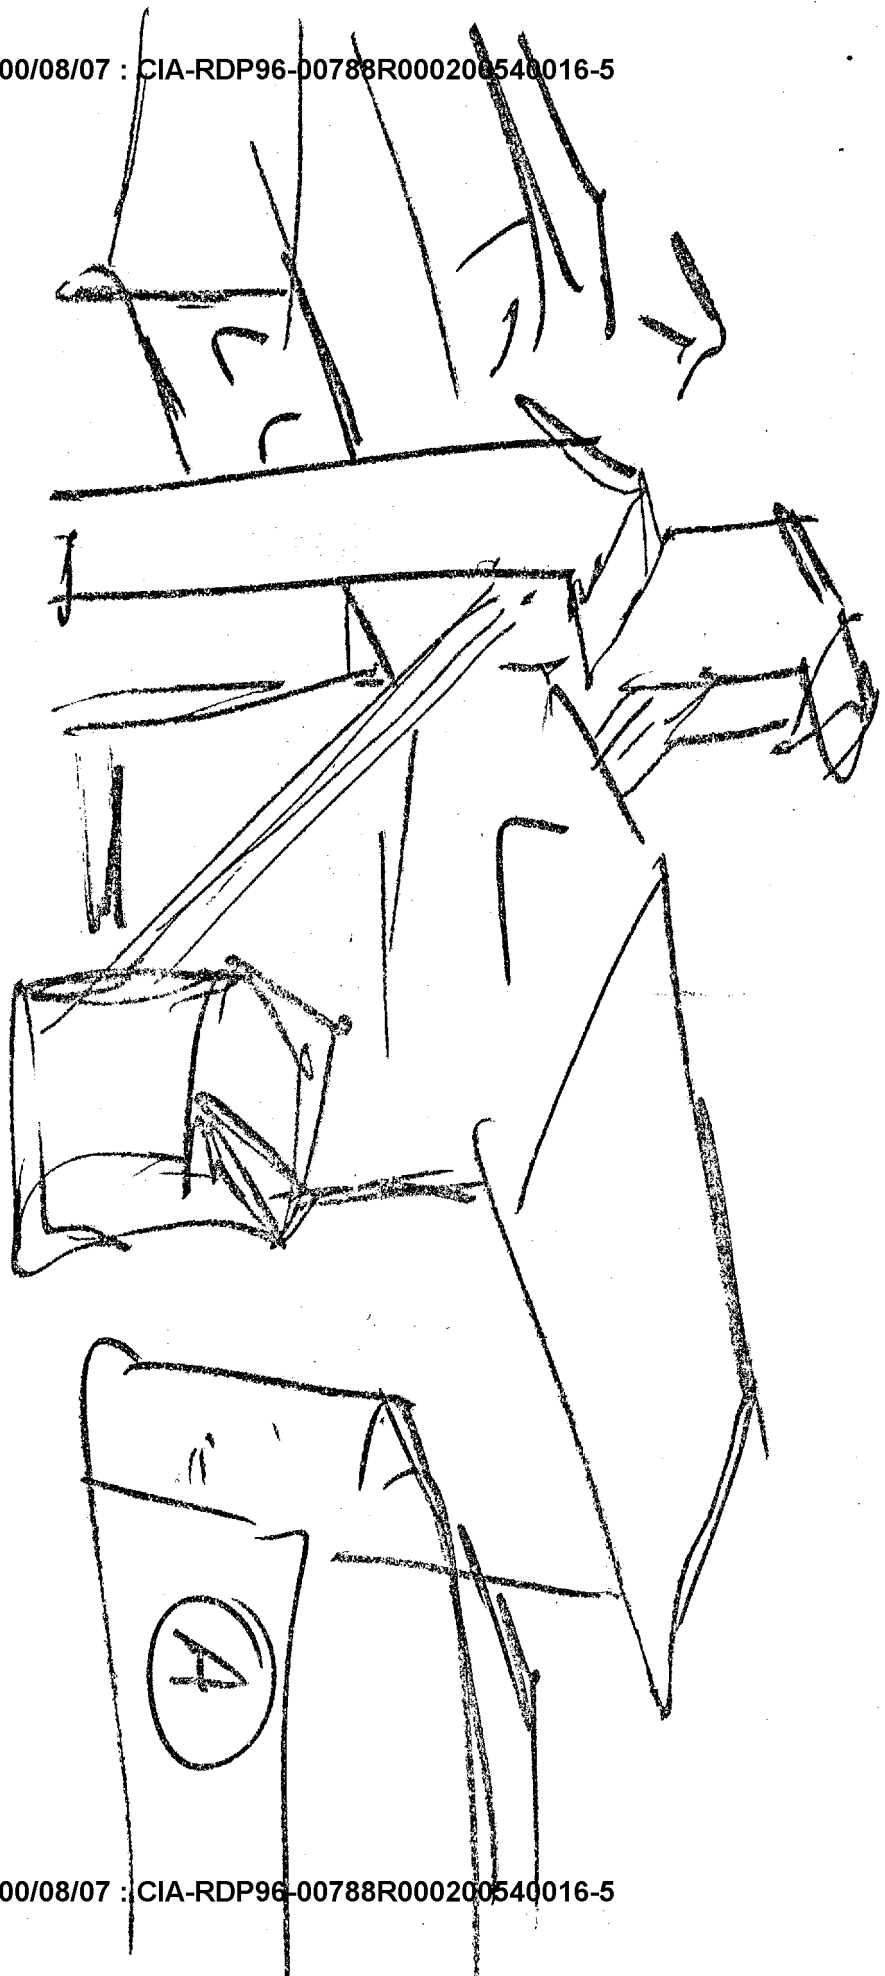

look for a large building with a sliding roof!!
