CD-64	#31	This was second ses- sion against this tar- get by this viewer. The same information was provided to viewer as last time with an additional instruction to go to approximately 10,000 ft. altitude above coordinate area and look down to des- cribe target.	Interviewer was instructed that target was actually [REDACTED] not be directly told this unless he felt it was nec- essary. This was the same interviewer that was used on the first session.	No additional feed- back from the first session. SG1A	25 Jun 80	25 Jul 80	a. / icinity coordin- ates under a very high roofed dome, arched very high into the air. Much like round topped building or structure of some kind. Shaped very much like a loaf of bread. b. When asked it's appearance from 10,000 ft., viewer stated it was a large oblong be- neath him. (This was not clearly determined to be on the ground or not, but it appeared that he was describing a ground object.) c. Within the large ob- ject there appeared to be a catwalk, with met- al scaffolding over a	[REDACTED]
