

#2 ^{to more} 1 days

Project - 8035

Session DC -

RVer - #7

Nes - #66

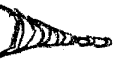

230900 Jan 81

icicles, freezing rain

building complex w/ row of smokestacks

towers and smokestacks

66 look directly below

helicopter noise 

looks like city buildings

old rather than modern

67 move to point on ground to exact location in envelope

(MAY) K

glasswork tgt is outside of town
2 towers w/ wire

glowing parabolic dish

30 Jan 1981

lot of people coming towards me
procession

#10919 Have him describe his current location

0920 Is it near the towers

manmade, round, steel, below grade
long narrow tunnel structure
like long train or plane.
curved

Or plane over there.
walls on each side
shy

+24 Have him move in the direction of
the plane.

white, large, not fighter but not
a commercial jet.
high wing

+26 Have him take a good look at it
so he can sketch it.

+28 Ok, when you're ready, have him move
back to the present and determine
any changes in activity or
situation between then (30 Jan)
and the present.

light, grit, jet scream, smaller, darker,
activity, blowing, bunkers

long tubular shape

+35 Have him examine the A/C.

+36 Have him go find one of the others
silhouette of Fat Boy

military, atk bomber size

thin long, twin engines in fuselage

+43 Have him talk about the nature of
their activity, are they training,
exercise, hostilities

Some kind of charade/misinformation

pilot/crew think training.

23 Jan

Verbal Summary
23 Jan 81

building complex w/ row of smokestacks
towers, smokestacks

city with bldgs - more old than
modern - English/German style

target is outside of town
2 towers connected w/wire
parabolic dish

30 Jan { lot of people moving slowly in
a procession.

a fence nearby, near the two
towers - outside

airplane, walls on ea side
(plane # 2) white, large, not
fighter but not commercial jet
has a high wing

jet A/C activity - like "weekend
warriors" coming in - not
knowing where to park A/C.
six A/C military, attack
bomber type, twin engines
in sequence

Nature of A/C activity is a charade
or misinformation but pilot/
crew think jet coming.
