SG1A

Comments about coffee stop - there is such a place just next to the US Embassy and I have seen him there and also have seen him carrying boxes w/ pastries to the Embassy.

The view describing ~~him~~ with a short fat man arguing with  SG1A

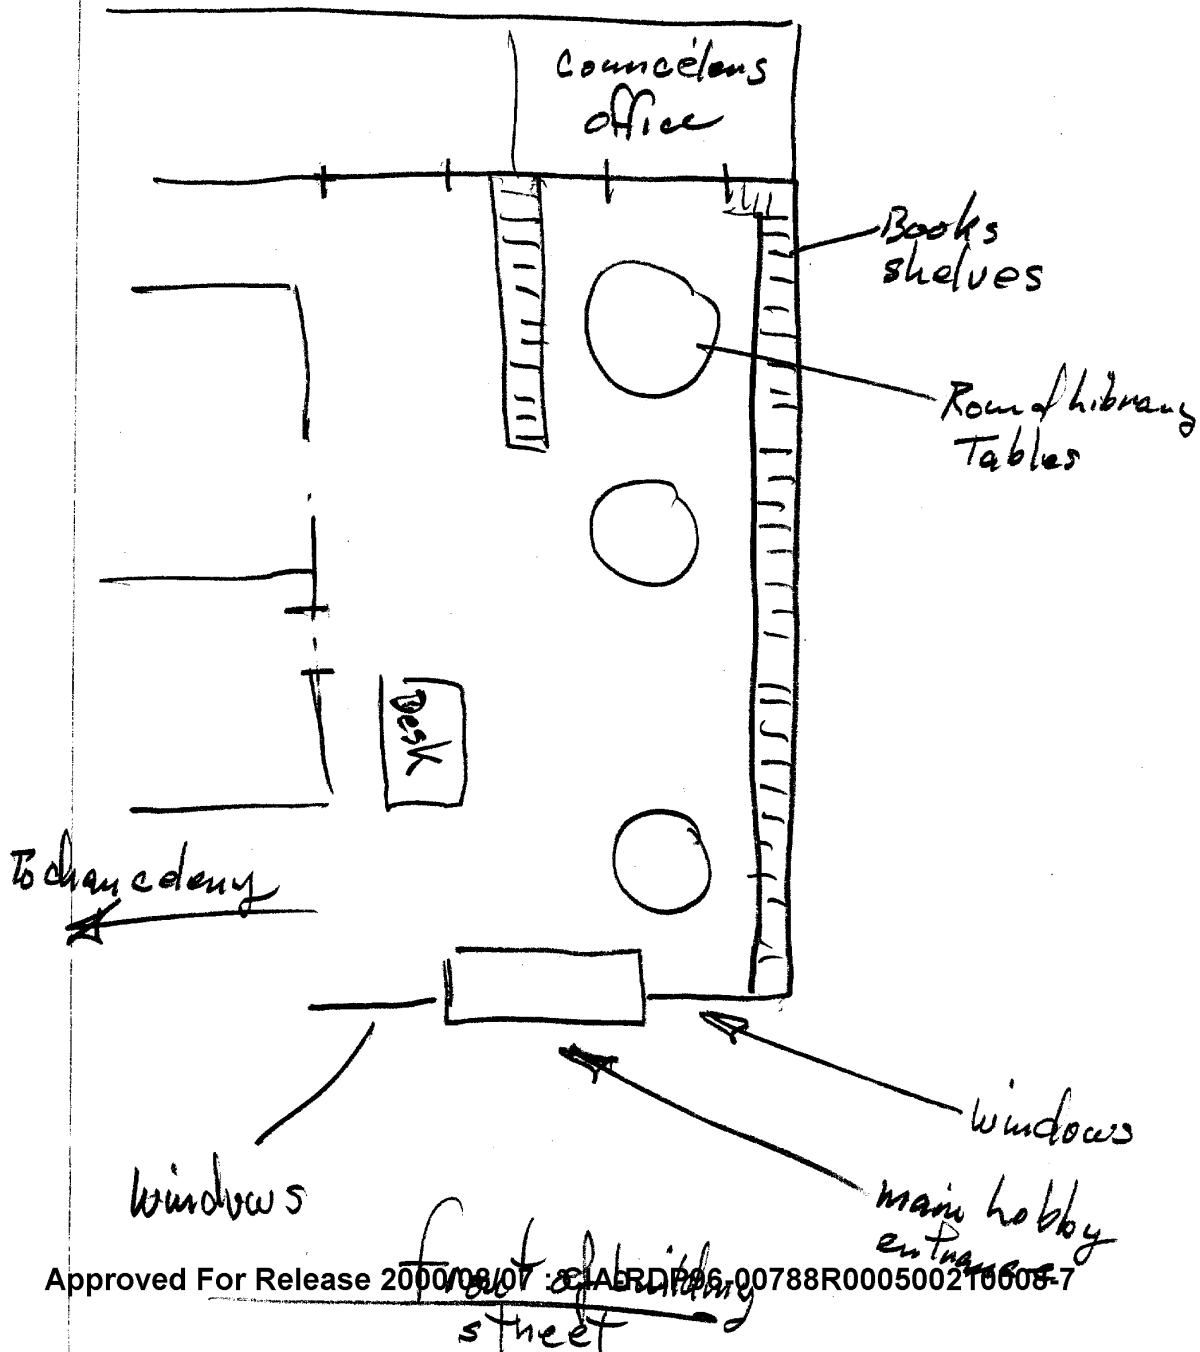

I got an impression that this person is the new RSO that said he was going to clean out the Embassy and  was his first person he was going to work on. SG1A

The RSO is about 50ish, about 5'6, wears large dark rimmed glasses, but is bald, and doesn't smoke.

The discription by all viewers that this person is very helpful to all is true. He is willing to do anything for anyone.

Viewer #08 describes a very good over view of the Embassy library almost as it is except there are no desks.
