SIRENS

SESSION: DC-1
VIEWER: 10.5
TARGET: 8037
TAPE: T-583
INTERVIEWER: 14
DATE/TIME: 03.1000 NOV. 80

SECRET PAGE 1 OF 1

START SESSION - YOUR MSN FOR TODAY IS TO FIND THE LOCATION OF AN UNKNOWN

[REDACTED] I WANT YOU NOW
TO CREATE, IN YOUR MIND, [REDACTED] AND TELL ME WHERE
[REDACTED] IS LOCATED. RELAX, FOCUS ON YOUR IMAGE.

M.m.m.m..... 3 dots on a..... sort of a line.... near mtns, southern
end and left side of URALS... dots almost in a straight
line.... last dot is further away by twice the distance of
other.... near big city... middle dot.... in mountains....
upper left to southern Ural..... Pause.... one in the
mountains is one we are looking for... glimpses of pipe
& scaffolding, not a lot... also looks... like it is not
cleared out very well yet... desolated, unpopulated area

--- TRYING TO GET ON THE GROUND. --- (pause) --- something
else, interests me... its twice as far again as that one...
interest near Vladivostok... shallow arc... mathematically
progressive distances..... mountains in background---

Feeling that of the 2... the base of the thing... two, side bldgs.
--- stuff that goes to upper top is not there... only small
amount of scaffolding... lots of unfinished bldgs... Is site
recognizable from o'head - Yes, but many trees still around
--- close to end of mtn chain --- GO UP TO 10,000' LOOK

FOR LANDMARKS - SW of me... dog leg in mtn rg... off the
dog leg is sizeable body of water, 100 miles out to the SW...
feeling of mesh of creeks & rivers, like in a flood basin...

POCK (LANDMARKS FOR TRIANGULATION - body of water may be river,
not lake... Due S of me -- way South... nothing down there!
--- SE... nothing here... LOOK TO YOUR NORTH - Lrg industrial

city -- in mtns maybe... 200 miles north... lot of smoke
stacks... W side of mtn rg... like a mining city... heavy
industry... FOCUS ON IMAGE of USSR - - END SESSION
