I signed the papers detailing  
the requested people to "Small & Large" for  
18 months.

I'm not too happy about doing  
that because they are out of luck and  
it hurts the people we took them from.  
I think 18 months was too long and if  
people want the project they should give  
some resources.

So - I don't know our understanding but  
I would like to see your establishment about  
we had are we trying to do? - what is our  
\* topic table! WAT 1 July 80 I want to  
recorder in detail where we are - where we

are going and re-affirm the continued  
need for the people we detailed to  
the project.

whose going  
to do this?  
Did it take  
Committee do this.

→ I want a formal review of the  
program with conclusions and  
recommendations for future involvement.

We are paying a good price in  
terms of people and I want direction to  
it.
