MEMORANDUM FOR THE RECORD

SUBJECT: Grill Flame Update for DCG-I (BG FLYNN), 11 Apr 80

1. (U) On 11 April 1980, I provided an in-depth INSCOM Grill Flame update briefing to BG Flynn. This briefing was given at the specific request of BG Flynn. NOTE: COL Stern, DCSOPS, USAINSCOM, received his initial orientation on the program at the same time. The following personnel were in attendance:

BG FLYNN	-	DCG-I, INSCOM
COL STERN	-	DCSOPS, INSCOM
LTC HAWES	-	XO, ADCSOPS-HUMINT, INSCOM
LTC WATT	-	INSCOM GRILL FLAME Project Manager

2. (U) Inclosure 1 shows the outline of the briefing. The briefing had been scheduled to last three hours, but due to other commitments, BG Flynn had to leave after two hours. I was able to brief all items of importance even though the time period was shortened.

3. (U) BG Flynn made the following observations/taskings:

a. Requested that we arrange for a program review to be set up between the ACSI and CG, INSCOM sometime in the June/July timeframe. That this review should take stock of where we are in the program and allow the ACSI/CG, INSCOM to give focus and direction to the program.

b. Stated that we should design and set up a training program. This training program should be formalized so that we can orderly program for replacements/additional personnel coming into our organization.

c. At the suggestion of COL Stern, it was directed that we look at finding other TDA slots to put our personnel against. COL Stern pointed out that there are numerous TDA slots in the headquarters that are never filled and probably never will be and that if we can put our personnel in those slots then the various staff elements can put in requisition against the ones we are currently filling.

d. Directed that we try to be more flexible in regards to our space requirements. BG Flynn felt that we should relook at the possibility of using the interview rooms in the Special Operations area. I explained to him our concern for safe-guarding the identity of our personnel, but that I would look into the situation again and see if something could be arranged until we moved into our new area.

e. BG Flynn directed that we have a signed statement from all personnel that states their concurrence that all sessions are tape recorded and that we do monitor most sessions from outside the rooms and that they have no objections to either of the above conditions.

4. (U) BG Flynn expressed his confidence in the management of the program. Directed that we continue as we have been, but to be sure that we keep everyone informed.
