As fresh -
the sky sergan
next door.

Standing on top of building, which is crowded
 inside with people (tourists) there is a perception
 of a large object falling (heading toward the
 building). It is traveling at a great velocity
 and is very dense. There is a high-pitched
 whining sound from the object. The object
 causes structural damage as there is a
 crash of the large object crashing through the
 building. Newspaper headlines tell of disaster,
 many people hurt. ~~but so long the collapse of~~
~~sanctity construction.~~
