general goal

long enterprise

S4 1/2 many people affected. Almost like a populist ~~etc~~ movement - almost like when a large, demographically homogeneous population begin moving towards a common, large-scale goal (i.e. "like Zionism," or "national liberation," or etc.)

change against resistance

Site involves structures in an area that mixes old  
+ new in a temperate climate, non-US, - reminiscent of  
Greece; Activity associated w/ site included ~~people~~ people,  
representative of a large, demographically heterogeneous  
population moving towards a common, though  
imprecise goal. One structure associated w/ site seems  
to be open, rounded, large + solid.
