

Project CY 8609

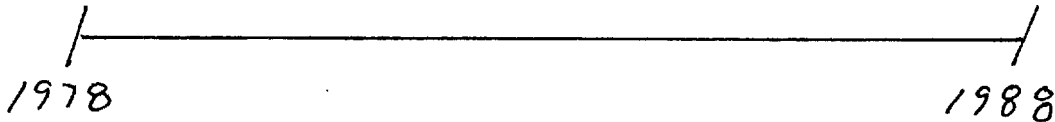

Task

1. Describe the technical facility located vic:

SG1A

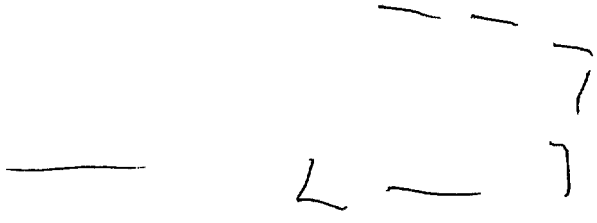

2. Within the following ten year period determine if and when any "special events" occur:

\* Note: If you do find any "special events" - - - subsequent sessions will be focused on each separate "special event."

Site is a compound of numerous structures + objects. A sense of being run down is present. Impression of several ~~of~~ round, silvery, perhaps pipes, running parallel. Various machinery here + there; impression of not of "abandoned," but of "not being used" for a while. 2 points of <sup>possible</sup> interest in part. First (ca. mid '83?) large black metal cylinders w/ tapered "caps" to be attached + moved elsewhere. Next (in late '84?) keep running sound + large mass or shape moving off diagonally ~~at~~ first starts for very short distance, then slowly further on.
