WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8809	SESSION NUMBER: 1
DATE OF SESSION: 16 JUN 88	DATE OF REPORT: 17 JUN 88
START: 1310	END: 1400
METHODOLOGY: SOLO	VIEWER IDENTIFIER: 011

SG1A

1. (S/NF/SK) MISSION: Identify the purpose and function of the target site [REDACTED]
2. (S/NF/SK) VIEWER TASKING: 011 was provided with the identical tasking data sheet furnished this project manager (see attached).
3. (S/NF/SK) COMMENTS: 011 feels that the session was "either all right, or all wrong". The transcript/summary speaks for itself. [Note: This is the "best SOLO session I have ever seen" with regard to CRV structure, data flow and extent of information. If it is indeed "all right", ~~then it represents a milestone~~ much to the credit of 011. It should be noted, also, that this viewer is particularly adept at picking up on "Stage 4 overlay" (i.e., things like peculiarities associated with the tasking itself) and did in fact detect "something unusual" in this regard, especially in the sense of the target "feeling like a friendly site"].
4. (S/NF/SK) EVALUATION: [2] *J.*
