

memorandum

DATE: 29 July, 1988

REPLY TO
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

SG1J

TO: DT-S

(ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018
 Session date: 25 JUL 88
 Start time: 1331
 End time: 1436
 Mode of operation: CRV
 PI: Spun glass in skin
 AV: None

2. (S-SS) Cuing: 6 digit encrypted coordinates:
 641501/880782.

3. (S-SS) Tasking: Describe the general site, focusing on
 the concepts [REDACTED] and "energy".

4. (S-SS) Results:

a. The session began inside a structure which appeared
 to have (AOL: insulated pipes) with echoic hissing noises in
 them.

b. Moving to the outside of the structure and looking
 at the general site area:

1) A complex of three buildings with a tall,
 triangular antenna were perceived (see sketches, pages 5 and
 7 of the transcript). There appear to be both permanent and
 semi-permanent structures in the complex.

2) The antenna (labeled "C" on page 7) is
 connected to two of the structures by underground cables.
 This antenna has a "ball" of static charge around it, and
 beyond that, a field of radiation which psychically appeared
 dark green in color. The radiation coming from the antenna
 gave the impression of being of a continuous nature (AOL:
 like a constant carrier wave).

3) One of the structures (labeled "A" on page 7)
 is concerned with control of the overall site. It receives
 its "orders" from somewhere else and translates these orders
 into actual tasks for the people in the building labeled "B".
 The people in Building "A" appear to be very inactive and

SG1A

bored, and even somewhat ashamed of their jobs.

4) The other structure (labeled "B" on page 7) is concerned with the actual working of the site. There is a lot of hustle and bustle-type activity in this building.

5) The activity of the site appears to center around some form of continuous communication. ✓

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8809	SESSION NUMBER: 4
DATE OF SESSION: 25 JUL 88	DATE OF REPORT: 29 JUL 88
START: 1331	END: 1436
METHODOLOGY: CRV	VIEWER IDENTIFIER: 018

- SG1A 1. (S/NF/SK) MISSION: Describe the activities associated with the target [REDACTED]
- SG1A 2. (S/NF/SK) VIEWER TASKING: 018 was directed to reacquire the site and to begin the session in Stage 4 with the monitor-introduced cue of [REDACTED] energy].
- 3. (S/NF/SK) COMMENTS: See site layout sketch on p.7 of the session transcript.
- 4. (S/NF/SK) EVALUATION: [g]
