Viewer 095

13 July 1988

Start: 1105

End: 1230

CRV

Site is a structure on flat, brown/tan land. The land is defined into strips/areas. There are trenches/long, narrow mounds on the land. The structure is square and blocky and under construction. It is being completed in at least two stages. The first stage is completed in the near (less than two years) future. The second stage is completed shortly thereafter. The completion of the second stage will allow for some primitive/primary functioning of the site. At the time when the second stage is reached, the site appears far more organized. There are roads and a building. The land is still divided into areas/strips/lanes. The building is square, wide, 3-4 stories high and is of block construction. Inside the ceilings are high. The concept of "roll out" is associated with the building at this stage. Associated with the concept of roll out are big, heavy, long, stackable objects. They are black, shiny and smooth. The percept "aiming" is associated with these objects as is the concept of a "double-checked system."

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8809

SESSION NUMBER: 3

DATE OF SESSION: 13 JUL 88

DATE OF REPORT: 18 JUL 88

START: 1105

END: 1230

METHODOLOGY: CRV

VIEWER IDENTIFIER: 095

1. (S/NF/SK) MISSION: Describe the activities, personnel and equipment associated with the target structure 

SG1A

2. (S/NF/SK) VIEWER TASKING: Coordinates only.

3. (S/NF/SK) COMMENTS: The monitor did not inform 095, until Stage 4, that this target had been attempted in two prior sessions. Since what appeared to be construction activity was occurring at the site, 095 was instructed to explore a Stage 6 time line for "completion points".

4. (S/NF/SK) EVALUATION: [3]
