PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: <i>8819</i>	SESSION NUMBER: 1
DATE OF SESSION: 890203	DATE OF REPORT: 890203
START: 1435	END: 1535
METHODOLOGY: CRV	VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Access and describe the key functions and activities of intelligence interest.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 696910/136160.
3. (S/NF/SK) COMMENTS: Part of his stage five on the word "early warning" did not flow like a normal stage five and is probably ADL; this included the concepts Israeli, Soviet, Palestinian and Iraqi. 032 was plagued by • strong PIs.
4. EVALUATION:

Many correlations - good ones!

HANDLE VIA SKEET CHANNELS ONLY
SPECIAL ACCESS REQUIRED

SESSION SUMMARY

VIEWER #: 032
DATE: 3 FEB 89
START TIME: 1435L
END TIME: 1530L

Site is a series of multiple structures. These buildings are arrayed in somewhat logical order, yet they are dispersed over a wide area. The buildings are constructed of concrete and steel. Some of the buildings have flat roofs while others have large curved or arching roofs (See sketch page 5). The surrounding area is sparsely vegetated and expansive.

Vehicles are present at the site. Some of the vehicles are used for the transport of objects while others are used for protection of the site. There are small weapons and large vehicle mounted ones.

There is a building that has a round object on it which houses some type of instrument that provides "early warning", watching, listening and looking (see page 7).

The concepts associated with "early warning" are: planes, small carts, vehicles, people, hangars, radar, globes, concrete, metal, steel, rubber, wheels, plastic, military, airbase, flight, fighters, bombers, munitions, border, and protection. Further concepts associated with the words "early warning" are Israeli, Soviet, Palestinian, Iraqi.

When the cue "key function" was given, perceptions of, and visuals of a small metal box were received. This box was metal with a bulb and a switch. Inside the box was a lithium battery and wires. The purpose of the box is to transmit energy to another receiver a considerable distance away. This device is to be handheld.
