Site is building B of complex (structures A, B and C). Building has a front entrance to the street. This entrance is blocked from the inside. There is an entrance to building B from building A. This entrance is on the right side of the main hallway which runs the length of building A. Building B is a large open room (AOL/S like a garage). The windows of the room are blocked and blacked out, from the inside. There is something/many things that are stacked one upon the other. Wooden crates and metal boxes are present in the room. There are black cylinders (approx 18-24") stacked neatly and horizontal on the floor against the east wall of the room.

There are persons assembling things, and there are maps and charts of some sort hanging on the north and northwest walls. There is a desk with a chair (AOL/S like a school teachers in a classroom), the desk is at the head or front of the room.

There are weapons present in the room, small arms ammunition boxes -- all are present. They build things in this room. There are soldering irons, small tools, drills, and wire.

I see a subway or train station. The train is stopping, people wait to get on and others prepare to get off. An explosion takes place and people are thrown everywhere. I see a small car explode. I see people gathered together and violence erupts.

These inhabitants of the building watch, home-in on and destroy whatever and whoever gets in their way. They are ruthless. Money is a big issue with them. Money is more important than anything else.

I want to call them terrorists, but these guys are for hire. They work for pay -- big pay. There is very little that is patriotic or national about them.

When seeking the key individual I found many people --

it is a very complex and convoluted chain to the top. But, one man sticks out as the leader in this building. He is 30-35 years old. He has straight black hair, dark skin, dark eyes, a moustache, periodically wears glasses. He is medium to thinly built -- not very muscular. He likes to wear jewelry -- and is wearing two bracelets one on each arm. He has piercing eyes and is a cruel person. He is ambitious and seeks wealth.

These people assemble items that look like boxes with rocker switches, buttons, batteries, and antenna. There is an oscilloscope in the room, frequency measuring devices, thin sheets of some material that can be layered. These devices are hidden, packaged, concealed and made to look like something they are not. There are also sinks and a refrigerator in the room.

The refrigerator is against the west wall of the room and it contains a number of things. There are 18 sealed glass vials containing a crystal clear liquid. The liquid is so clear it almost has a blue tint to it. It is (ADL/S Borontribromide) sealed against contact with the air -- it is explosive, poisonous and is used as an ignition, a starter, a catalyst, or a trigger! There are other contents with tubes filled with white crystals and there is a stainless steel cylinder with a screw-in stopper.

Building A is a front, it is a place where meals are prepared, meetings are held and information is passed -- it lends credence to the existence of the other buildings. Building C, is a place to house people, hold people; workers, prisoners, guards, soldiers (ADL/S like a bunkhouse).

54½ Building B has a front entrance at the street which is blocked on the inside. There is a doorway - Arched between A/B found at the center/R of the hallway in A.

Building B is a large open room (AOL looks like a garage). The windows are blocked and blacked out. There is something like many things stacked in wooden/metal boxes. There are black cylinders mostly stacked on the floor against East wall of the room.

There are persons assembling chairs. and there are maps and charts of some sort hanging on the North and N/W walls. There is a desk w/ a chair (AOL/S almost like a classroom) with the teacher's desk up front.

There are weapons present - (AOL/S) small arms ammunition boxes. They build things here - soldering iron, wire.

342 I see a subway or train station
the train is stopping people wait
to get on, others prepare to get off.
And an explosion takes place - people
fall or are thrown everywhere.

I see a small car explode
on a street. I see people
gathered together and videos
snaps.

These guys watch, how in or
and destroy what ever or who
ever gets in their way. They are ruthless.
Money is at issue. Money is more
important than anything else.

I want to say foremost - -
but these guys are for hire. They
work for pay - big pay. Very little
is patriotic or of national significance
to them.

[Key Individual]

54 1/2 There are many - very complex chain
to the top. The central figure at the
site. 30-35 yrs. with straight
black hair, thin skin, dark eyes
mustache, glasses sometimes, jewelry
gold - bracelets on both wrists.
watch w/ black metal band, gold on
silver skin. Medium build, thin but
not very muscular, piercing eyes -
calculating and reflection of his personality.
Coward person. Ambitious, seeks wealth.

Boxes with rocker switch, black buttons,
batteries, antenna - other things.
I see an oscilloscope, frequency measurement,
thin sheets of something layered, terminals
imbedded in the sheets, wrapped, packaged.
Hidden, concealed. Made to look like
something else, drills, sinks, refueling,
selecting techniques of some sort. Also with a
radio repair shop.

A. Bldg A is just its a place
where meals prepared, meetings held.
Information passed. 'Lands credence
to the institution nature of the other
Bldgs.

Bld. C - house people - workers,
prisoners, guards, soldiers, whatever
(AC/S like a bunk house)

542 - Feidgas is on the west wall - contents
 that are critical on 18 sealed glass
 vials w/ a crystal clear liquid - so
 clear it is almost blue - Acids
 Boron-tri-bromide. Sealed against contact
 w/ air - flammable, poisonous, - Ignition
 or starter of some sort - a catalyst.
 It is used as a trigger. There are
 other contents with crystal in tubes,
 batteries, some kind silver cylinders
 with a screw stopper.

sk 1/2 I see the fuselage of an aircraft
and flames rolling up its sides from
underneath. The A/C is inside
A building - probably a hangar,
Colors on the A/C are Red and
white - It's coming from beneath.

* DESCRIBE THIS ACTIVITY

MONITOR'S NOTE
TO SELF

Although capture and detention are probably EVENT associated and very accurate data, the key to the problem appears to be "ongoing" activity/purpose and function of this target complex.
