OPS SUMMARY

Target personality is a somewhat petite, highly intelligent, blondish, girlish individual who likes music or plays a musical instrument. She definitely has been in the US. "Nigeria" surfaced phonetically as being associated with this personality. There is a female (currently) surrounding her in a sister-type relationship; the female's name is Pamela. Professionally, the target personality is involved in human relations, a giver ^{person a} (salesperson) associated with a profession that bears some sort of "hallmark," an emblem. Issues apparently connected with Nigeria (?) were genetics, malaria, and typhoid; and possibly *medical* research connected thereto. Personality appears to be located in the south central portion of the US. Refined further, the area of interest and activity appears to lie mainly between San Angelo and Duval, Texas. *See ENCLOSURE 1*

She is used mainly as a courier in drug related activity. The drugs are transported in small packages bearing a commercial emblem of sorts.
