SUMMARY OF INFORMATION

The vessel targeted is carrying contraband in the form of drugs. The vessel looks similar to the one in the sketch provided (sketch #1) and the contraband is located inside a locked metal storage container.

The storage container is red in color and has the numbers #67, or 267 or 2673 on the sides of it. The contraband is stored inside cardboard boxes and is placed along the outer walls of the container -- toward the middle and away from the doors which open on either end of the container. The contraband is not reachable unless the container is completely unloaded.

The current location of the ship is not solid, but my perceptions are that it is in transit to the north off the eastern coast of the United States.
