E. SESSION SUMMARY: SG1A

Q: "Does the [REDACTED] have contraband?"
A: Yes.

Q: "What type?"
A: Many blocks of sticky, dark brown substance.

Q: "Where is the suspect ship headed?"
A: The ship, presently west of Australia, is headed south of Australia, eastward across the Atlantic, through the Panama Canal, and to the northern coast of Columbia.

Q: "..to offload where?"
A: In the vicinity of Barranquilla.

Q: "..to offload when"
A: Not addressed during session.

Q: "..to offload to what sister ship (give name)?"
A: The contraband will not be off-loaded to another ship. However, other contraband, in the form of drug-processing chemicals, will be ON-loaded within several days from another ship, now also west of Australia. This ship has a double name: first name contains R,S, and N; second name believed to [REDACTED]. After this transfer, the other ship will turn westward from Australia, while the SG1A [REDACTED] will continue in the direction already indicated.
