PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

---

PROJECT NUMBER:	0203 (Tng)	SESSION NUMBER:	1
DATE OF SESSION:	12 FEB 90	DATE OF REPORT:	12 FEB 90
START:	0910	END:	0933
METHODOLOGY:	CRV	VIEWER IDENTIFIER:	052

---

1. (S/NF/SK) MISSION: To describe the target site (The surface of the sun) in Stage 2 terminology.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates only.
3. (S/NF/SK) COMMENTS: No Physical Inclemencies. Considering the difficulty of this site, 052 did excellent work. 052 experienced the natural phenomenon of "going to the site, but turning one's back to the target" which sometimes happens when a target would be physically threatening to the Viewer. As a result, the first part of the session consisted of descriptions of black sky with stars. I gave 052 a "movement command" to turn around, and the following descriptions were accurate for the target.
4. (S/NF/SK) EVALUATION: 3
5. (S/NF/SK) SEARCH EVALUATION: N/A

MONITOR: 018

HANDLE VIA SKEET CHANNELS ONLY
