WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: S4 TRNG <i>124</i>	SESSION NUMBER: 1
DATE OF SESSION: 881012	DATE OF REPORT: 881014
START: 0945	END: 1025
METHODOLOGY: CRV	VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Access and describe in a stage one sense training target # 12B, Canyon de Chelly, AZ.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 361012/810925.
3. (S/NF/SK) COMMENTS: Excellent session, good structure. 032 is learning to pace himself very well. Similar to yesterday's (the first) stage 4 session, he is obtaining information for all columns, including EIs and Is. Today he even obtained an EI for the site itself. He also utilized stage 4 1/2 at an appropriate time and in an appropriate manner. The concept of session summaries was introduced today and 032 wrote his first. Location or stage 7 exercises were not performed because of this additional instruction.

Site is a structure made by man of natural materials -- ~~my perceptions are those of~~ huge stones, cubic in shape which are stacked ~~on top of each other~~ on top of each other. The site has high and low aspects to it. The elevated portions are thick/dense but tall, vertical columns. The site consists of multiple smaller structures surrounded by another sheer vertical structure -- "like" a perimeter fence of sorts.

The site has an old perception to it. It was designed for protection or defense -- it has been in existence long enough to witness turmoil, conflict, suffering and their opposites.

The site as a whole appears to be elevated -- positioned on a high place. Rock and some vegetation are present although in unknown quantities.

When including AOC or A/S in your summary for comparison it's a good idea to put it in quotes so that the project manager is aware that is what it is. Also keep AOC + A/S to a minimum in your summary - use only when necessary.

Example above: "like" bricks was not necessary to anyone's understanding.

"like" a perimeter fence was - because the idea was not represented elsewhere in that sentence or the data.

Concerning your session - go back + take a look at your ⁵⁴vertical spacing. !!
