PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: CRV TNG * 5166	SESSION NUMBER:
DATE OF SESSION: 6 DEC 88	DATE OF REPORT: 6 DEC 88
START: 0915	END: 1045
METHODOLOGY: CRV (THRU STAGE IV)	VIEWER IDENTIFIER: *032

1. (S/NF/SK) MISSION: ACCESS AND DESCRIBE TNG TARGET * 5166 (MI-25 HELICOPTER), IDENTIFIED BY COORD 516699/130925

2. (S/NF/SK) VIEWER TASKING: SEE MISSION STATEMENT.

3. (S/NF/SK) COMMENTS: PI - TIRED....AV - NONE. VIEWER EXPERIENCED TYPICAL DOOR KNOBBING SESSION. THERE WAS A WEALTH OF GOOD DATA THROUGHOUT THE SESSION, BUT VIEWER COULD NOT PUT TOGETHER INTO AN OVERALL PICTURE.

4. (S/NF/SK) EVALUATION: THIS SESSION WAS SIMILAR TO AN OPERATIONAL TYPE SESSION, IN THAT THE TARGET WAS A PIECE OF MODERN SOVIET EQUIPMENT. THE DOORKNOB EFFECT IS ALSO A COMMON PROBLEM WITH OPERATIONAL TARGETS.

NOTE: WHEN DOORKNOBBING DOES OCCUR, IT IS IMPORTANT THAT THE INTERVIEWER RECOGNIZE THE PHENOMENA EARLY-ON IN THE SESSION AND BRING THE VIEWER BACK ON TRACK. IF THE SIGNAL LINE DOES NOT COOPERATE IN THIS ENDEAVOR, IT MAY BE BEST TO ABORT THE SESSION AND TRY AGAIN WITH A FUTURE SESSION.

SESSION SUMMARY

VIEWER #:032
DATE: 6 DEC 1988
START TIME: 0915L
END TIME: 1045L

Target is an object -- this object is a craft of some sort. This craft is constructed of metal and plastic or glass. The craft is aerodynamic (see page 12) and is associated with flight (see page 7A) at variable speeds and could be considered a "fighter" (see page 12), it is very fast, light and small.

The target is rounded and has a cockpit like a plane (see page 13). The target is controlled by a man during it's operation in both direction, power etc.

A tremendous amount of power and vibration are associated with this craft. The craft whirls and rotates or spins at a very high rate of speed (see pages: 3,6A, 11B, and 15). During operation the craft produces a tremendous amount of power, heat and a "glow or glowing" can be associated with it.

The craft has glass coverings which are crystal like in appearance. There are many panels in the object which posses lights (see page 5 and 9).

The men associated with the craft wear hard hats and uniforms (see page 13 and 14).

The craft sits on very small legs and can be considered very narrow and sleek in appearance. The craft is in the presence of many other similar or like objects (it is not unique).

**NOTE: This session was one of repeated doorknobing -- which proved to be frustrating. I was never certain as to whether or not I was on the signal line because everything I perceived was in different buckets -- I was not able to pour it all into the same sandbox and determine what it was that I was looking at.
