3. (S/NF/SK) COMMENTS: The session was conducted in the "Fern's old office. There were no physical inclemencies noted by viewer. The fact that we were conducting the session in a different building and non-sterile room did not effect O25 in the least. An experiment was conducted with a sketch of the world to facilitate the location of the target person. Sufficient data was provided to deem this session as a success. *Target was named (literally) and identified as Gorbachev.*
