Site is a cluster of structures situated in a relatively flat, open area with some sawtooth vegetation. Structures manifest strong vertical + horizontal components. Structures are of many sizes + shapes, bringing to mind an industrial ~~plant~~ or amusement park type of impression.

Amusement Park
(Marriott's?)

Site ~~is~~ is a complex of structures, at least one of which ~~is~~ incorporate ~~features~~ features very strongly suggesting scaffolding. Site is surrounded by a fence. There appear to be many diverse elements which comprise the place. Site strongly ~~suggests~~ promotes AOL's of an amusement park or an industrial ~~complex~~ complex with lots of pipes & stuff. Water is important but not primary to the site.
