1. (S/NF/SK) TASKING: Monitor received tasking from OPS OFF on 29 SEP. (see attached) Additional information, to wit, future sessions would involve searching both time and space for target/target data.

2. (S/NF/SK) SESSION: Source seemed to achieve immediate, strong site contact - this was maintained throughout the session. Source was particularly attracted to the "windswept" quality of the site; this resulted in AI. Source was concerned about the possibility of AOL drive, with regard to idea of "POW compound", but as this idea arose ~~off~~ only after EI perceptions, monitor feels info to be relevant.

St6 search of "compound" (source's word) was undertaken to find 'things' that source perceived to be meaningful.

ST7 produced what might be the word (C. ASIAN) AZER BAI JAN

'H' CRV-1 RV-003 30 SEP 86 (cont)

3. (S/NF/SK) SUMMARY: Site is a military compound located in a (geographically) isolated area. It is served by an airstrip. Site ~~possesses a feeling~~ ~~purpose~~ ~~of~~ "guaranteeing" or "keeping out of circulation" (a group of men and women).  
(AOL - political prisoners). ADP

4. (S/NF/SK) Source was told that his impression of "military compound" was correct and that this site would be worked again.

S412 activities are not majorly physical; more  
sedentary type activities.  
"backwater" type position assignment. Not that  
~~the purpose~~ <sup>the purpose</sup> here may not have a certain  
importance, but that it's no "hub of activity."

S41/2 "keeping out of circulation"

"frankly"

Site involves an isolated, austere compound, probably military, with possible airfield attached. Tall, metal structures, probable towers are interspersed w/ smaller, rectangular brownish-green structures. Emphasis is on functionality + serviceability, not aesthetics. Compound is surrounded by fencing + wires; guards, dog, weapons, lights + smaller compounds are present. Strong suggestions of confinement, guarding, "quarantine," + restrictions are present. AOLs of "political prisoners" + "POW Camp" inferred.
