## PROJECT SUN STREAK (U)

Session Procedures Report

## FORMAT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Control Number: 'OTHER E'

Nickname:

Date of Session: 15 SEP 86

Target Country:

References:

Session Number: CRV-2

Date of Report: 15 SEP 86

Mission Status:

Technique Utilized: CRV

Source Identifier: RV-021

1. (S/NF/SK) TASKING: Same as CRV-1

Monitor 099

2. (S/NF/SK) SESSION: (Monitor 'front-loaded' with CRV-1 data.) Source seemed to be in an extraordinarily perceptible/receptive state. After describing site in S.I., ~~was~~ and moving through S.F., monitor cued source with "inside structures something should be visible."

3. (S/NF/SK) Summary: Site is a land-water interface with a bridge-like structure as well as other structures nearby. There is a large, cavernous building at the site. Inside, there are pungent chemical smells, the sound of heavy equipment moving about and echoes produced because of the size and openness of the building. There are cylindrical objects; ~~ridges~~ <sup>ridges</sup>, unceasingly and heavy (AOL - drums). There are also tracked vehicles and long, silvery, smooth cylindrical objects which produce a sensation of ~~rapid~~ swift movement

(AOL - against ~~mainly~~ <sup>projectiles</sup>)

'OTHER E' CRV-2 (CONT)

'Ambience' of building suggests 'invasionary activity'.  
~~The~~ Site seems to source to be a ~~at~~ warehouse-type  
place used to stockpile equipment.

4. (S/NF/SK) ~~Feedback~~ FEEDBACK: Throughout session, monitor provided  
source with ~~positive~~ positive reinforcement words.  
~~At~~ beginning after SI description of site, i.e., "this  
seems to be the site"; "you're doing fine", etc.

At end of session, monitor told source that she seemed to  
have done an outstanding job, but that there was really no  
way to confirm this until ops officer reviewed session ~~transcript~~ transcript.
