WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Control Number: 'I'

~~Microfilm:~~

Date of Session: 8 OCT 86

~~Target Country:~~

~~References:~~

Session Number: CRV-1

Date of Report: 8 OCT 86

~~Mission Status:~~

Technique Utilized: CRV

Source Identifier: RV-003

1. (S/NF/SK) TASKING: Ops officer pre-empted scheduled ops by presenting monitor with a new target to be placed on docket. Attached ~~the~~ "info sheet" was provided with no accompanying explanation. Monitor had no idea or guesses regarding nature of target or data.
2. (S/NF/SK) SESSION: S.3 & S.6 ~~search of perspectives/searches (TIME & SPACE) of target yielded~~ ~~nothing of interest~~ that "jumped right out in front of viewing/monitor". Site was viewed in ~~the~~ periods of darkness. Source received no cueing info other than coordinates.
3. (S/NF/SK) SUMMARY: Site seems to be a complex with one particularly big, open, tall structure. Something like a "cloud" may have been produced in conjunction with operations here; ~~however~~ it is at least connected with site. ~~But~~ AOL's of NUKE tests & Barium injection experiment.
4. (S/NF/SK) FEEDBACK: None provided except that target was a "new" operation.

Site is one main composite structure, ^{approximate} heavily made up of metal, of the idea of interstitials; ^{surrounded by} other smaller structures. N. side structure is large, empty, open space w/ vertical lines ("like" cables, conduit, what have you) run on one side. Elements involved. Dark colored. ^{with a chimney;} Swords, rounded. Some sort of Amorphous, Silver shape is connected w/ site. People may be present on top of structure. Structure has an "interstitial" quality, what is it. Not U.S.

1433

Site is a ^{finished} complex group of structures with one tall, large structure heavily made up of metal. Inside this one structure is a large empty open space with ventile lines ^{to outside} passing through it, perhaps like cables or conduits. There is an elevator involved. The entire structure has a smooth rounded feel to it. ^{outside} Inside (w/ I - perhaps the walls) there was interesting or "honeycombed" metal construction. Structural has an industrial quality about it. A silvery amorphous form is associated with this site.
