SG1J

21 April 1995

MEMO FOR: [REDACTED]

FROM: [REDACTED]

SUBJECT: Unsolicited Information

Ed May of SAIC called yesterday morning and volunteered to send me unsolicited information he had obtained from a "remote viewer" named "Joe" relating to the Oklahoma City Bombing. I said that we did not have a means at ORD for tasking or disseminating this type of information at CIA and therefore there was no one I could give it to. He asked me for a point of contact in law enforcement who might want the information. I said I did not know a point of contact for anyone at the FBI, but provided him with one later in the day after speaking with [REDACTED]. I recommended that he call the FBI immediately. I also recommended that he send it to you as well, Al, since you have a means for evaluating and disseminating such information. The information is included in this FAX.
