

June 15, 1988

TO WHOM IT MAY CONCERN:

This letter will serve to introduce and recommend to you Mr. Gharith Pendragon whom I consider to be of high character and sincere ability.

I was privileged to attend two of Mr. Pendragon's survey courses in parapsychology which he taught at Windward Community College in Kaneohe, Hawaii. The courses were well taught, comprehensive and examined all areas and issues with fairness and impartiality. The material was well-researched, up to date and organized. References were extensive and representative of a legitimate body of scientific effort.

As one of the Directors of the Hawaii Defense Fund for Open Science Foundation I am familiar with several examples of Mr. Pendragon's work as a serious person with psychic gifts and abilities which I have known him to use unselfishly and in a sincere manner.

Sincerely,

*William S. Johnson*
