#### SUMMARY OF INFORMATION

The target site consists of a large object that is dark in color. The object has two sides and moves from side to side. The object has two round portions at one end that sit beside each other. These round portions look like two large lens.

At times I felt that a very large camera was looking at me straight in the eye.

I could not get a good feeling for what this large object was used for but it seemed for something enjoyable.

I felt that the object was placed either outside or in a very large spacious setting.

At one point I saw a wolf associated with the target.
