stand-bags
at an oil-
refinery

Director
oriented

Official
government
quasi-military feel
technical

Self - like it has a sector-of-interest & is oriented
to best address this sector

Self not heavily people oriented. - People are present in
 sufficient numbers to operate, but purpose is not directly
 related to people-support. People are here for the sake
 of the site, rather than vice-versa. Sense of standards
 & waiting, preparation, practical, ~~discipline~~, alertness,
 things don't happen here until directed by "higher-ups" who
 are in charge & responsible. People here are "Indians." Sense
 of non-U.S.
