SUBJECT: SESSION SUMMARY (C/SS)

SG1J TO: DT-S (ATTN:)

1. (S-SS) Statistics:	Viewer:	018
	Session date:	28 APR 88
	Start time:	1005
	End time:	1057
	Mode of operation:	SOLO
	PI:	Ribs hurt
		Sleepy
	AV:	None

2. (S-SS) Cueing: Access LTC Higgins and:

- a. Determine if he is alive.
- b. Describe his current physical condition.
- c. Describe his attitudes towards his captivity and captors.
- d. Describe his current circumstances.
- e. Determine whether he will be released and when.

3. (S-SS) Results:

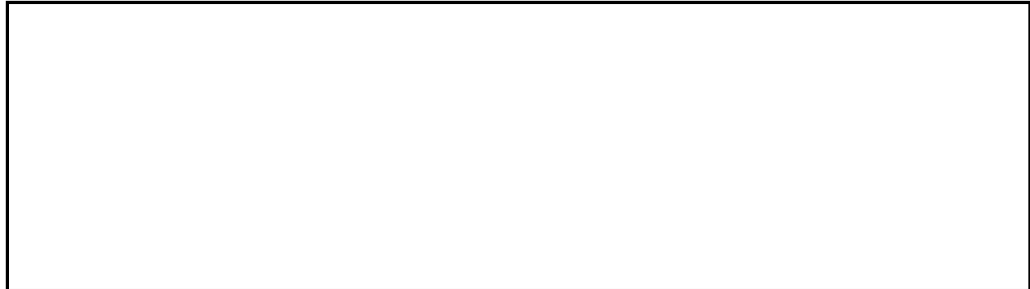

~~a. He is alive~~b. He is currently ~~very weak~~. He especially feels weakness in his arms and legs, but I did not find any other specific problems (such as pain, etc.).

c. His current attitude

- 1) Toward his captivity is that he still ~~has some small hope of being rescued, but has largely given up.~~ I got a few "memories" of times when he had been seen and ~~recognized by the~~

~~Police~~ while being moved from one place to another, but they did nothing, and he has realized that they are aiding his captors with their silence.

2)

STAT

- d. I got the perception of very ~~few~~ guards, except when he was remembering being moved. At that time, he was surrounded by them. As for his present location, I got the perceptions that he was in a ~~solitary room with little more in it than a bed.~~ This room is located in a one-story structure which has a very tall fence (see Fig. 1). The fence is painted in large "blobby" patterns (see Fig. 2) of pastel green and pastel turquoise colors (AOL: like you might see at a day-care center). ~~The place is clean and neat,~~ but has beginning to fall into disrepair (the grass is getting very tall, etc.). The place is otherwise deserted.
- e. ~~According to perceptions gained on a time-line (see Fig. 3), I do not feel that he will be released, but will stand trial, suffer humiliation and disappointment, and be put to death.~~
