SUBJECT: SESSION SUMMARY (C/SS)

SG1J TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018  
 Session date: 12 FEB 68  
 Mode of operation: SOLO

2. (S-SS) CUEING: "Access and describe the "tall and slender" person of the last session (08 FEB 68). Provide a physical and psychological description of this person. What is his/her title/position?"

3. (S-SS) SESSION CONDITIONS: P1: cold & hungry, AV: none.

4. (S-SS) RESULTS:

a. PHYSICAL DESCRIPTION: Person appears to be caucasian male with darker than normal skin. I get the impression that the dark apperance is caused mainly by beard. Person seems to be wearing a (AOI: dress). There were repeated impressions that his clothing is a dark color (repeated impressions of present dark blue or purple clothing, interspersed with impressions of this person in other settings wearing all white.) The dark colored clothing seems to be of very heavy material. He appears to always be wearing a hat of some floppy material which tends to have creats or folds in it and has a "hatband" of some type.

b. PSYCHOLOGICAL DESCRIPTION: Repeated accessing of this person produced three categories of "psychological orientation":

1) How he feels about himself:

a) This person has a feeling that he is present at the right time, and that he is right. He feels, however, that some of the feelings he holds closest are more "feminine" than he would care to admit to others. This holds no inward personal embarassment or causes no "attitude"

...s, but is just something he observes and accepts about himself without question or concern in his attempts to "know himself".

b) He has an "unspoken fantasy" about himself which has been in his mind since childhood. In this fantasy, he visualizes himself pushing very lightly with the open palm of one hand against a huge boulder and moving it out of the way with little or no effort. He does not, however, like to work hard, and does not like working with his hands.

2) How he feels about his situation:

a) He has an attitude which, in its passive aspect, is "wait and see". It is somewhere between "preordained by fate" and "natural order of events", leaning more toward the latter. His attitude, in its active aspect is somewhere between "things will happen as they must, and I am playing my part", and "I'd better be prepared to take advantage of things when they happen", again, leaning more toward the latter. Overall, he doesn't really care, he just knows that he is prepared for when the time comes, and feels sure it is coming.

b) Accessing him more closely, I caught what appeared to be his actual visuale of some military trucks parked under and amid some tall trees, and what (ADL: appeared to be) the foot of an OD colored tripod (see drawing, page 5).

3) How I feel about him: I get the definite impression that this person would tend to let a lot of things slide by without any other reaction than just observing them, but when the time was right for him to act, would act with a definite firmness and strength which would run over anything in his way.

c. WHAT IS HIS TITLE/POSITION: This part of the tasking was forgotten about by the end of the session and was not addressed.
