Borton Fall

SANITIZED COPY

Date: 27 February 1969

MEMORANDUM FOR: MC A02A

SUBJECT : Results of Photo Comparison
Case No. 10,111 Cpl. R.C. BORTON

REFERENCE : DIA/AP 365 2-68-JRT
Photo No. 52

1. The following report contains the final technical results of the comparison between the unidentified photo and the enclosed photos submitted by your office.

2. POW #52 appears to be a much older man than Borton. Borton's face is round as opposed to the oval shaped face, with angular jawline, of the POW. Borton's nose appears shorter in length with a wider nostril spread. Both persons have thick eyebrows; however, POW's seem more arched. Hairlines on both individuals are very similar, though POW's seems a little narrower from temple to temple.
